21 Running

How To Play

Mode
1

AUTOMATIC MODE

Under direct sunlight, Both Rover and Planetary gears start to run automatically.

Switch to Right

Mode
2

MANUAL MODE

Under direct sunlight, transmission Planetary Gears keep running, but Rover will only run by being pushed manually.

Switch to Left

TroubleShooting

If it doesnot run smoothly, please check if all burrs are cut thoroughly.

Funcionamiento

¿Cómo funciona?

Modo automático

Con la luz solar directa, el rover avanzará y la antena parabólica girará.

Deslizar el interruptor hacia la derecha

Modo manual

Con luz solar directa, sólo girará la antena parabólica.

Deslizar el interruptor hacia la izquierda

Solución de problemas

Si el aparato no funciona correctamente, asegúrese de que todas las rebabas hayan sido cortadas.

It's time to have some FUN !

1. Take outside under direct sunlight. Best results are obtained when operated on a sunny day.
2. For indoor fun, use a 50 watt halogen light. The product will not run on a cloudy day, shaded locations, indirect sunlight, or under a Fluorescent light.

WARNING :
CHOKING HAZARD
Small parts
Not for children under
3 years

¡Es hora de divertirse un poco!

1. Váyase fuera en la luz solar directa. Obtendrá los mejores resultados durante un día soleado.
2. Para el uso en interiores, utilice una bombilla halógena de 50 W. El robot no funcionará en caso de muchas nubes, a la sombra, en luz solar indirecta o luz fluorescente.

Advertencia
Riesgo de asfixia
Pequeñas piezas
No apto para niños menores de 3
años
